- High-performance loudspeaker
- Splash proof
- Power supply: 3 AAA batteries
- 1 level VOX
- Side tone: end of transmission tone silencer
- 38 CTCSS tones
- key lock, Scan, Monitor
- Battery status indicator and power save
- Call button
- Weight: 75g
- Dimensions: 48x29x90 mm

Code: C1459

COMPLIANCE

Device in compliance with the RED 2014/53/EU regulation

Midland improves the XT line of excellence and makes it PROfessional.

What does it mean?

More functions, better performance and greater safety.

XT10 PRO keeps the red colour to give continuity, but definitely expands its performance with a wider frequency band (PMR446: 446.00625 - 446.19375MHz) and is now water-repellent to humidity and dew (splash proof)

XT10 PRO confirms communication over distances up to 4 km in optimal conditions, the ease of use that distinguishes the entire XT line and all the features already present.

While remaining tools within everyone's reach, walkie talkies are the ideal companion for your excursions.

Simple and light, as well as very practical, they can increase the level of safety while carrying out an outdoor activity.

Especially when you go out as a couple or in a group, **this tool becomes indispensable**, since it will allow you to keep in close contact with your partner, and prevent an unexpected event from turning a pleasant trip into a situation that is not easy to deal with.
