

Orange & White Floor Pad For Ultra High Speed Burnishing

Technical data sheet

TD111

Date: August 2016

Description:

The Scotch-Brite™ Orange-White Floor Pad is a premium quality floor maintenance pad. It's made of high quality synthetic fibers in an open textured non-woven construction. Polishing particles are dispersed throughout and bonded with a durable adhesive. Each floor pad has a pre-cut centre hole.

Special Features:

- Specific fiber mix to ensure a faster polishing action and a high production of shine
- Minimal floor finish removal.
- Open textured construction for easier washing of pads after use
- Consistent performance
- Durable pad at work.

Where and When to Use:

RPM	> 400	> 1200
Strip		
Deep cleaning		
Spray	X	
Scrubber dryer		
Buff	X	XX

XX Designed for X suitable

Use the Scotch-Brite™ Orange & White Floor Pad for dry buffing of protected floors under ultra high speed rotary floor machines that operate in the range of 1200-3000 rpm. It can also be used for light spray cleaning.

Directions for Use:

1. Install a clean floor pad under the machine pad holder
2. Dust mop the area.
3. Dry buff a section of floor in 2 passes
4. Move backwards to next section
5. Dust mop entire floor area
6. Remove pad and wash after use.

Note: floors must be clean, free of soil and in dry condition prior to dry buff.

Maintenance of pad:

1. Remove from machine after each use and shake dust out of pads
2. Rinse wash under tap water or machine wash every 5 uses.
3. Hang up for drying. Do not use wet.

Note: machine washed floor pads will shrink about 20 mm after first washing cycle. Recommended washing-machine temperature is 40°C (higher temperature will decrease the life of the pad).

Performance Advantages:

Produces up to 30% more shine on protected floors (Test 3M/DB)
Make less scratches on the floor
Durability: 25 000 sqm at 1500 RPM in standard use with appropriate maintenance.

Disposal Information:

Discard into appropriate container, for incineration, if available.
Packaging material: recyclable

Product Specifications:

The Scotch-Brite Orange & White Floor Pads consist of polyester fiber and synthetic adhesive. They are not significantly affected by water, detergents and cleaners normally used for floor maintenance.

Product Characteristics:

Color: Orange & White
Marking: 3M logo and reference.
Thickness: 25.0mm
Centre hole: Pre-cut at 85 mm
Weight: 1250 g/m²
Fiber type: Polyester, mixture of sizes.

Aggressiveness (Schiefer Value):

Expected value for polishing operation: 0g
3M value: 0g

Packaging and labeling:

Packaging material made of 100% recyclable material.
Multilingual grey colored label on each case.

Standard Sizes:

Standard and non-standard sizes available on demand.

Origin:

Made in 3M USA in an ISO 9001:2008 and ISO 14001:2004 certified plant.
