

# TASKI® ULTIMAXX 360

Join the **360** Revolution!

# Say goodbye to the mop and bucket

Cleaning floors with a mop may seem simple and cost-effective, but it has several drawbacks compared to mechanical cleaning. Mopping often spreads dirt rather than thoroughly removing it, resulting in less hygienic surfaces. It is also physically demanding, time-consuming, and inconsistent in its effectiveness.

## Meet the new TASKI ULTIMAXX 360

Driven by cutting-edge TASKI technology, the new ULTIMAXX 360 is your powerful entry into professional-grade, mechanised floor cleaning. Effortless, effective, and built to impress.

### Unlock mechanized, professional cleaning

Removes up to 5x more soil and significantly reduces floor drying time compared to mopping. ULTIMAXX 360 glides into tight spaces, allowing effective cleaning of all areas. This combination delivers greater productivity and a superior, more hygienic cleaning result.

### Best-in-class performance

Engineered for efficiency, ULTIMAXX 360's 4L tank cleans up to 360m<sup>2</sup> per fill and delivers an impressive productivity rate of 1,470 m<sup>2</sup>/hr. With ergonomic design and magnetic valve, it ensures efficient and effortless cleaning.

### Intuitive & Ergonomic

Built for ease, the new ULTIMAXX 360 combines ergonomic design and smart weight balance, to reduce fatigue and deliver smooth, agile cleaning. With simple and intuitive controls, even for inexperienced users.

### Sustainable by Design

Designed with sustainability in mind, ULTIMAXX 360 is made with recycled plastic and uses up to 30% less water than traditional mopping, offering powerful, eco-friendly cleaning for performance-driven, environmentally conscious spaces.

## Elevate your floor cleaning performance with the new ULTIMAXX 360

Every TASKI machine is designed with advanced technology to deliver smarter and more sustainable cleaning. Unlock TASKI latest advantages with ULTIMAXX 360.

### IntelliPower

Our TASKI FLEXX lithium-ion battery platform delivers 50% more autonomy.  
Insert and go. Always ready.

### TASKI Enviro

The ULTIMAXX 360 reflects TASKI's commitment to a greener future. Built with recycled plastic components, it delivers high-performance cleaning with a lower environmental footprint.

### IntelliBac

With IntelliBac technology, the ULTIMAXX 360 keeps its surfaces bacteria-free\*. Built into the tank, it will be active 24/7 and will last the lifetime of the product.

### Digital Motors

Powered by cutting-edge digital motors, it offers a longer lifespan and delivers up to 30% energy savings for cost-efficient performance.

### Twister Mode

Activate Twister Mode with just one touch, automatically adjusting settings to achieve perfect shine levels combined with TWISTER pads.

### TASKI AR Support

Augmented Reality for your TASKI machines to support you with assembly, instructions and problem-solving. Its combination of self-service aid and TASKI remote IntelliSupport maximize machine uptime and productivity.

\*Laboratory tests have shown that built-in antimicrobial technology reduces bacterial growth on the surface of IntelliBac components by up to 99.99%.

## Meet the new ULTIMAXX 360

Thoughtfully engineered to deliver outstanding cleaning performance. Compact, efficient and effortlessly effective. Just simple, smart cleaning.

ErgoHandle: superior manoeuvrability, improved user comfort and control

4L removable fresh water tank: shifted to the brush deck for less operator fatigue

LED lights: easy fill level monitoring

360° operation: machine's full rotation, perfect for congested areas

49 cm working width  
Magnetic fitting for easy installation & removal. Available with pad holders, Twister & pads

LED light: great visibility of working area and cleaning result validation

# Join the 360 Revolution!

Intuitive dashboard operation

Handle lock function: easy to remove obstacles or park the machine

Easy start in 3 steps with self-explanatory on-off operation

Battery compartment: easy access in order to remove/fit the battery

Yellow maintenance points: less downtime - extended lifespan

Compact design: integrated dirty water tank & squeegee

# Your challenges drive our innovation

At TASKI, we understand what matters most to your business. That's why our solutions are engineered to meet your toughest cleaning demands, efficiently, reliably, and intelligently.

360**

## BEST-IN-CLASS PERFORMANCE

- Engineered for efficiency
- 4l tank (best-in-class)
- up to 360 m<sup>2</sup> per fill
- 49 cm working width
- 1,470 m<sup>2</sup> per hour

Operational Efficiency

Continuous Innovation

Cost Control

## INTUITIVE & ERGONOMIC

- Easy start & stop
- Designed for ease of use and operator comfort
- Ergonomic handle
- Low centre of gravity
- No training required

People & Safety

Continuous Innovation

## UNLOCK MECHANIZED, PROFESSIONAL CLEANING

- 5x more soil removal
- 99% of water removal
- Visibly cleaner floors
- Reaches previously unreachable areas

Operational Efficiency

Guest Experience

People & Safety

## SMART TECHNOLOGY, SMARTER CLEANING

- Digital motors
- 30% energy savings
- IntelliBac technology
- Water Pump
- Magnetic valve
- Twister Mode
- TASKI AR
- TASKI IntelliTrail

Continuous Innovation

Sustainability

Asset Protection

## SUSTAINABLE BY DESIGN

- 30% made from recycled plastics
- Increased lifespan on key components
- 30% water savings vs. traditional mopping

Sustainability

# Whatever your sector, the ULTIMAXX 360 fits right in

## Effective cleaning is a universal need

### Facilities Management

In the cleaning industry, saving time means increasing profits or delivering more value to your clients.

The ULTIMAXX 360 helps you do both:

- **Replace outdated mopping** with efficient cleaning
- **Clean faster, more effectively** with cutting-edge technology
- **Empower your team** with equipment that's easier to use and more ergonomic
- **Enhance customer satisfaction** with visibly superior results
- **Boost productivity and profitability** by saving time on all tasks

### Food Service

You put care into every detail don't let sticky or dirty floors spoil that effort. The ULTIMAXX 360 ensures your floors meet today's high customer expectations:

- **Delivers spotless and hygienic cleaning** that enhances your restaurant's image
- **Cleans efficiently around and under tables** plus in other tight spaces
- **Transforms floor appearance**, creating a welcoming first impression
- **Encourages repeat visits** with consistently clean floors
- **Boosts customer spend**, as cleaner environments influence purchasing behaviour and improves reviews

### Hospitality

Your guests notice the details, especially floor cleanliness. Upgrading to a mechanized solution will help you stand out with:

- **Elevated hygiene standards** from consistent, high-performance cleaning
- **Enhanced visual appeal** that guests will notice
- **Professional-grade results** that reflect your commitment to quality
- **A lasting first impression**, because clean floors speak volumes

### Healthcare

In healthcare, cleanliness isn't optional, it's critical. The ULTIMAXX 360 is engineered to meet the highest hygiene standards with:

- **Fast, effective spill management** and reduced soil and germ spread
- **Drier, safer floors** that stay cleaner for longer, minimising slip hazards
- **IntelliBac technology**, with built-in antimicrobial protection that disrupts bacterial growth and reproduction
- **Consistently hygienic performance** that outperforms traditional mops

### Retail

A clean, hygienic environment is key to customer satisfaction, and now you can take it even further:

- **Extends mechanized cleaning** into tight, high-traffic, and hard-to-reach areas
- **Ideal for aisles, food prep zones, customer washrooms**, and convenience spaces
- **Delivers powerful and consistent results**
- **Enhances visual appeal and hygiene instantly** by replacing manual mopping
- **Leads to higher satisfaction**, stronger loyalty, and more repeat visits

### Government & Education

Your buildings are valuable assets. TASKI helps you protect them with intelligent cleaning solutions like the ULTIMAXX 360:

- **Enhances appearance** while preserving long-term asset value
- **Engineered for ergonomics**, ensuring comfort and ease of use
- **Exceptional agility and low handle weight** for effortless manoeuvring
- **Perfect for tight, high-traffic areas** such as classrooms, washrooms, and kitchens

The TASKI logo is displayed in white capital letters on an orange rectangular background.
