STRATA

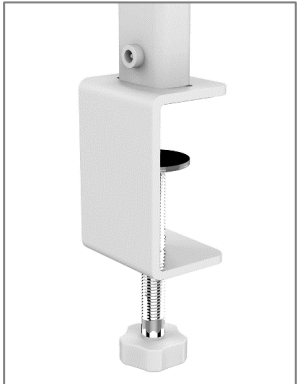

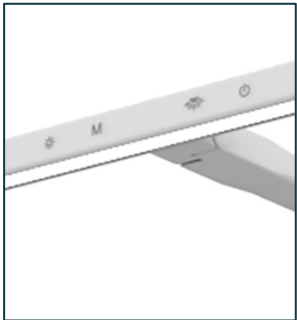

STRATA

Reference : 400124562

Reference : 400165231

STRATA is an elegant overhead lamp, ideal for lighting a large office space, particularly behind a screen. Its flexible arm and articulated head allow for precise positioning of the light. Equipped with a touch switch, an adaptive brightness sensor and dimming and color temperature control, it automatically adjusts the lighting for optimal visual comfort.

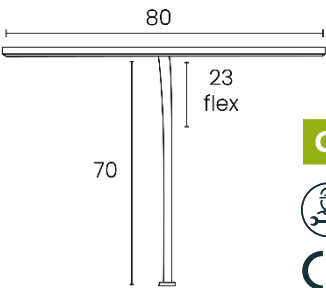

- **Asymmetric lighting** : equipped with asymmetric lighting that neutralizes a large portion of glare and significantly increases the illuminated area.
- **Innovation** : a new generation of ergonomic desk lamp that offers a wide luminous range, high-quality customized lighting, and reduces eye strain.
- **Optimal visual comfort** : thanks to its flexible arm, STRATA adapts to the height and size of your screens.
- **Modern design lamp** : its innovative, slim, airy, and sleek shape will enhance your workspace.
- **Adjustable brightness and color temperature** : on its head, four touch buttons allow you to vary the brightness and adjust the color temperature. Adapt your lighting according to your activity (rest, reading, work).
- **Smart** : depending on the ambient light in your workspace, the lamp adjusts its brightness for better visual comfort, thanks to its light sensor.

Max height : 70 cm
Min height : 40 cm

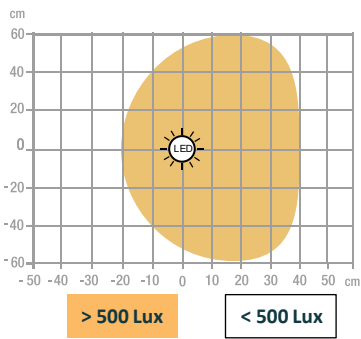

- Materials :
- ABS plastic and recycled aluminum head.
 - Recycled aluminum and metal arm with a rubber-coated surface
 - Steel clamp (max opening : 7.5 cm)

Warranty : 2 years

SAP no.	400124562	400165231
EAN code	3595560029525	3595560034963
Color	Black	White
Luminous flow (lm)	3130	
Lux (lx)	2950 at 40 cm	
Luminous efficiency (lm/W)	150	
Color temperature (K)	3000 / 4000 / 5000 / 6500	
CRI	93	
Source lifetime (h)	50 000	
Energy consumption (kWh/1000 h)	20	
USB Port	No	
Inductive charger	No	
Net weight (kg)	1,23	

ABOUT UNILUX

Founded in 1952, UNILUX is a French company specializing in lighting and ergonomics. Over the past 25 years, UNILUX has become a benchmark in the field of lighting in France and throughout Europe. In 2000, UNILUX joined the French group HAMELIN, a European leader in stationery. The company modernizes and evolves to become a creator of ambiance and well-being.

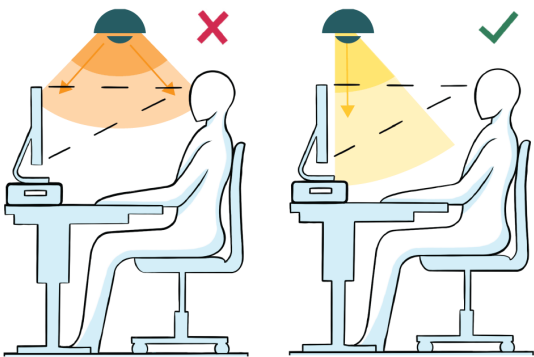

OUR EXPERTISE

Asymmetric lighting: reduce your eye strain

A desk lamp with symmetric lighting distributes light in a focused way on your work surface, which is ideal for conference tables, shops, or reception areas. However, transitioning from a bright area to a dark one can cause the pupil to contract and dilate, leading to eye strain, tingling, or even headaches. To avoid these issues, we recommend using a lamp with asymmetric lighting.

An asymmetric lighting lamp directs the light using internal reflectors to offset the beam and illuminate a larger surface area. This allows you to light up your keyboard and working documents in front of your screen without causing glare or uncomfortable reflections on the screen, while also limiting light contrasts, which are a major source of eye strain.

ENVIRONMENT

Unilux focuses on sustainable development and takes concrete measures to reduce its environmental footprint and best meet the evolving expectations of its consumers.

We are notably committed to reduce our greenhouse gas emissions by 29% between 2021 and 2030 in response to the "Net Zero Carbon Emissions by 2050" challenge. Eco-design, emissions reduction, and continuous improvement are at the core of our concerns.
